Objective

A Python Developer with a strong foundation in Django, HTML, and CSS, interested in building scalable and user-friendly web applications. Seeking an entry-level opportunity to apply backend and web development skills in a professional environment.

Technical Skills

Programming Language: Python, HTML, CSS
Framework: Django
Database: SQL, SQLite
Tools: VS Code, Git, GitHub, Excel

Projects

Developer Portal   Self Project

- Designed and developed a web-based Developer Portal using Python and Django.
- Created responsive user interfaces using HTML and CSS.
- Implemented backend logic using Django views, models, and templates.
- Utilized Django ORM for database operations with SQLite.
- Developed CRUD functionalities for managing developer profiles and project data.
- Followed MVC architecture for clean and maintainable code.
